The Bachelor degree

2003-2007

Medical school Zvezdara

Expertise

- HTML
- CSS,SASS,BOOTSTRAP
- JQUERY,JAVASCRIPT,REACT.JS
- Understanding of OOP concepts
- GIT and GITHUB

Experience

2022 - 2023

Belgrade Institute of Technology-BIT

I have recently completed a 6-month intensive bootcamp program that focused on developing software engineering skills. I have studied a range of technologies including HTML, CSS, JavaScript and gained basic experience with software development library such as React. Through this bootcamp, in addition to the technical skills I have developed, the course also taught me how to think critically and creatively. I am now able to find faster solutions, as well as develop new ideas. I am also able to understand the impact of technology on society and how we interact with it. Overall, my experience studying IT has been invaluable and I hope to continue to use my knowledge and expertise to help make the world a better place.

2013 - 2022

Hospitality career in United Arab Emirates
